ABOUT PLAN INDIA

Plan India, a member of Plan International Federation, is a nationally registered independent child development organisation committed to creating a lasting impact in the lives of vulnerable and excluded children, their families and communities. For over 35 years, Plan India and its partners have improved the lives of millions of children by providing them access to protection, basic education, proper healthcare, a healthy environment, livelihood opportunities and participation in decisions which affect their lives.
Plan India works with its NGO and community partners to protect children from all forms of abuse and exploitation, thus helping children realise their dreams and full potential.

I have had the good fortune of working with brave, inspiring and often overlooked children since the last decade. Their resilience fuels my passion to make a meaningful difference in their lives. Having been associated with Plan India all these years, I am proud to say that we have been able to improve the lives of over a million children and their families.

As a result of Plan India’s programmes, birth registration increased to 74%; access and use of toilets increased to 43%; incidence of child abuse decreased by as much as 55%; and 3,00,000 women and 18,000 girls have improved household economic security.

However, millions of children still lack access to basic food, shelter, education, medical care or security. They endure extreme poverty and are constantly at risk of exploitation and danger, living and working in circumstances simply unfit for a child.

On World Day Against Child Labour (June 12, 2016), I was honoured, along with Anil Kapoor, Plan India’s goodwill ambassador and patron, to announce the first ever National Conference on ‘Children in Difficult Circumstances’. Known as the ‘Plan for Every Child’ initiative, the conference, organised by Plan India in November 2016, provides a platform for vulnerable children to make their voices heard and is a first ever consortium to showcase best practices from NGOs across 30 states in India and recommend policy reforms to ultimately transform the lives of these children.

By 2020, Plan India aims to positively impact two million children and reach five million vulnerable and excluded children through advocacy. With the unwavering support of Plan India’s partners, including corporate, government and Civil Society organisations, I am confident we will achieve this target.

We continue to strive for gender equality and the recent launch of Plan India’s ‘The State of Girls in India 2016’ report outlines actions that must be taken in order to achieve Sustainable Development Goal (SDG) 5 – Achieving Gender Equality.

I look forward to working closely with Plan India to strengthen our efforts towards empowering children and their communities so that they are up to their full potential and realise their dreams.

Best Wishes,

Govind Nihalani, Chair Emeritus
Having been associated with Plan India since 2007, I have personally witnessed the positive impact of its programmes on children and their communities. There is no greater joy than seeing the glow on the faces of the children we serve. I have been fortunate to visit several programmes in Uttar Pradesh, Odisha, Rajasthan and Delhi and have had the opportunity to interact with children, youth, parents and their communities. These memories are something I will cherish for the rest of my life.

Through Plan’s ‘Because I am a Girl’ campaign, I am proud to share that Plan India is marching forward on its commitment to working for gender equality. Plan India’s 8th annual ‘State of Girls in India 2016’ report was released with a special emphasis on Sustainable Goal Development (SDG) 5 – Achieving Gender Equality.

2016 marks the end of my term as Chairperson of Plan India. I have seen this organisation develop and grow with its diverse programmes and advocacy initiatives. I feel honoured to have contributed in its successes. This would not have been possible without the unwavering support of various stakeholders including Civil Society organisations, local, state and national governments as well as individual and corporate donors. I proudly welcome Rathvi Vinay Va, who has been associated with Plan India since 2011, as the new Chairperson. I am confident that under her stewardship, the organisation will further strengthen its efforts to transform the lives of underprivileged children.

I wish everyone at Plan India the very best and look forward to continue to be associated with it in whatever capacity possible to advance children’s rights and equality for girls.

Best Wishes

Arti Kirloskar, Chairperson
Plan India Governing Board
“Let us sacrifice our today so that our children can have a better tomorrow.”

- A. P. J. Abdul Kalam

It gives me immense pleasure to share Plan India’s 2015-16 Annual Report with you. During the year, Plan India’s programmes have reached over a million children in more than 2,500 villages and 450 urban slums through 193 projects across 14 states.

Some of our key achievements over the last year, in Plan’s programme communities as highlighted by external evaluations, include the following:

- More than 18,500 institutional deliveries were facilitated by Plan and its partners
- 62,000 children in six Plan intervention states benefitted from the renovation and renovation of 200 water points providing access to drinking water
- Over 400,000 children studied in 2,660 primary, secondary and senior secondary schools benefitted as a result of our educational interventions
- Over 60,000 women were supported by microfinance activities through 2,800 groups across the country

Plan India successfully rolled out Project Ahana to implement services for the Prevention of Parent to Child Transmission (PPTCT) of HIV in 9 states and 218 districts of India. The project aims to test 1.78 crore pregnant women for HIV and provide services to early infant diagnosis to at least 90% of HIV exposed infants.

Plan India responded to the floods in Tamil Nadu, Andhra Pradesh and Telangana as well as the drought situation in Maharashtra, Jharkhand and Uttar Pradesh, with this year being the first time that in addition to food baskets and hygiene kits provided on of water through tankers was made for communities in Beed.
district in Maharashtra. Overall, our humanitarian assistance and long-term rehabilitation reached more than 56,000 children, women and men in the worst-affected areas during these disasters. Furthermore, this year marks the completion of the Hudhud Response programme which has benefitted nearly 4,000 families which were worst-affected by the cyclone in coastal Andhra Pradesh to rebuild their livelihoods.

As part of Plan India’s advocacy efforts, I am proud to share that Plan India, in partnership with Consortium for Street Children (CSC), hosted a South Asian conference in April 2016, on children in street situations and contributed to the United Nation’s forthcoming General Comment.

In the lead up to a first-ever of its kind national conference on Children in Difficult Circumstances (CIDC), Plan India organised five regional consultations and 30 state consultations with the objective of establishing a platform to foster dialogue and promote collaboration to address the rights of the most vulnerable children.

As part of Plan India’s Country Strategic Plan, by 2020, Plan India is committed to improving the lives of five million children and youth, through advocacy and working closely with the Government and other partners to ensure that no child is left behind.

We, at Plan India, firmly believe that in addition to basic rights of health, nutrition and education, children must also be given the opportunity to enhance their capabilities and participate in decisions affecting their lives. Art works, ops are a part of our community development programmes that focus on raising awareness on child rights and building children’s participation as active citizens. Today, over 36,000 children and adolescent boys are at the heart of our community development programmes that focus on raising awareness on child rights and building children’s participation as active citizens.

In June 2016, Plan India opened a workshop with 500 children living on the streets of Delhi. This workshop was by far the largest one we have ever done and it was heart-warming to witness first-hand, how through the use of storytelling, mask theatre, puppetry and games, children questioned deeply embedded cultural beliefs and were provided with an outlet to express them creatively.

All our programmes will continue to focus on tackling gender inequality. Plan India is further strengthening its position by planning robust reviews, monitoring and documentation.

I take this opportunity to thank the Government as well as individual and corporate donors for their continued support and belief in our mission. I am deeply thankful for the contribution of our NGO partners who work with us relentlessly to empower children and their communities.

I am deeply grateful to our 170 colleagues around the nation who work with tireless dedication and immensely pastoral on delivering its impact for children and their communities. I also thank the members of Plan India’s Governing Board and its patrons for their consistent support and a laudable strategic guidance. I especially thank Arti Kirloskar, who completed her term as Chairperson this year, for her dedication to the cause and welcome Rathvi Vinay as the new Chairperson of the Board.

As we embark on another year towards advancing children’s rights, Plan India continues to be deeply committed towards ensuring meaningful change in the lives of the most vulnerable children and their communities.

Yours Sincerely,

Bhagyashri Dengle
Executive Director, Plan India
PROGRAMME OVERVIEW

India being home to the largest number of children in the world, providing them access to quality healthcare, education and nutrition is a significant challenge to equitable growth. As of India, the number of girls and boys enrolled and regularly attending schools has improved to around 95%, however, nearly 6 million children are ill out of school and many more are either dropping out or irregular to school. Recent data indicates a drop in child marriage in girls from 47.4% (2005-06) to 30.3% (2013-14) but the overall status of girls in India has not been much to celebrate. Similarly, child trafficking and child labour continue to be major challenges facing children in vulnerable situations with nearly 30 million children engaged in one or the other form of labour, either in their family enterprises or outside.

During FY’16, the Government of India merged greater deploration of welfare schemes to State Governments for better coordination or programming with an objective to accelerate the implementation of welfare schemes and programmes. See national government flagship programmes such as ‘Beti Bachao Beti Padhao’, ‘Swachh Bharat Abhiyan’, Digital India, Sklls India, Sb ool WASH Improvements Integrated Child Deploment Services (ICDS), Integrated Child Protection.

Sb ome, Midday Meals - are directly aligned with Plan India’s Country Strategic Plan (CSP) IV objectives.

Plan India’s programme model is working in partnership with grass root NGOs to implement the programmes aligned with the CSP IV (2015-20). Furthermore, Plan India is developing innovative pilots to influence public policy and improve community governance. These programmes have been implemented across states that Plan India works in and benefit children, youth and their families in communities with low development indices.

Through 16 field Programme Units, Plan India was able to reach nearly 2,500 villages and 450 urban slums, directly benefitting more than 1 million children, of which more than half were girls. During the year, a particular emphasis was given to the prevention of child labour and trafficking, gender disimination, adolescent health, universal birth control and child nutrition. Additionally, two million children have been positively influenced through our various programmes and campaigns with support from 27 long term NGO partners and 60 theme specific NGOs.

OUR HISTORY

1937

British journalist John Langdon-Davies and refugee worker Eric Muggeridge set up the ‘Foster Parents Plan for Children in Spain’, to help children affected by the Spanish Civil War.

1940s

During World War II, the name was changed to ‘Foster Parents Plan for War Children’ and worked in England, helping 125,000 children from all over Europe.

1950s

As Europe emerged, our work gradually moved to other countries as ‘Foster Parents Plan Inc.’ to reflect the goal of helping the lives of children in need, whatever their circumstances.

1960s

Work extended to Asia and South America. In 1962, US First Lady Jacqueline Kennedy was the honorary airwoman during the Silver Jubilee.
Our ongoing programmes for maternal health, breastfeeding and optimal development have led to improvements in 82,700 children in the age of 3-6 years benefiting from our Early Childhood Care and Development (ECCD) interventions. Also in the phase, 2,150 government Frontline Workers (FLW) and community health volunteers were trained on various aspects of care and support for young children and their mothers. They are now supported to take the child development agenda forward in their communities.

During the 1980s, we maintained a special focus on promoting Village Water Safety and Security as part of our WASH interventions. See rural villages in remote and hard to reach locations were supported through participatory techniques and government linkages, to access safe water, build latrines and learn good practices on environmental hygiene and community action. The programme reaped the benefits of 111,500 households having access to clean and safe drinking water. Additionally, 24,000 people were trained in water management and 84,500 children and youth were oriented on community and parental hygiene.

In an effort to promote quality and holistic education, over 15,000 re-enrolled children completed Class X and 50,000 children now have access to functional libraries and e-classrooms in their schools. Innovative projects like Digital Learning Centres are making it easier for young girls to gain access to quality education using digital technology. At another level, the digital learning programme has enabled teachers to improve their pedagogical skills and raise the quality of classroom interactions.

Emphasis was also given to employability and economic empowerment programmes in providing young girls and women with the tools necessary to become financially independent. As a result of these programmes, 38,500 women gained access to financial services. Through our vocational and skills training courses, 1,200 youth received job placements with some starting their own small enterprises at home.

Child protection being at the heart of all of Plan India’s child development activities, we ensured that 250,000 children in vulnerable situations directly benefitted through our child protection interventions. More than 5,600 government FLWs and NGO workers were trained in different legal and promotional aspects of child rights. They, in turn, supported nearly 80,000 children.

Today, as one of the largest children’s development organisations in the world, Plan International is active in over 70 countries, standing up for children’s rights and girls’ equality. Working in over 85,000 communities, our work benefits a population of 160 million people, including more than 81 million children.
PLAN INDIA IN 2015-16

We worked in

3,000 VILLAGES & URBAN SLUMS

ACROSS 14 STATES

We partnered with

12 TECHNICAL AGENCIES

74 NGOs

22 CORPORATIONS

We trained

40,000 WOMEN ON FINANCIAL LITERACY

82,700 CHILDREN BENEFITTED FROM OUR ECD INTERVENTIONS

BENEFITTING 1,000,000 CHILDREN

240,000 CHILDREN ON CHILD PROTECTION MECHANISMS
**OUR PURPOSE**

We strive for a just world that advances children’s rights and equality for girls. We engage people and partners to:

- Empower children, young people and communities to make vital changes that tackle the root uses of discrimination against girls, exclusion and vulnerability.
- Drive change in practice and policy at local, national and global levels through our reach, experience and knowledge of the realities children face.
- Work with children and communities to prepare for and respond to crises and overcome adversity.
- Support the safe and successful progression of children from birth to adulthood.

**OUR APPROACH**

Plan India’s unique child-centred approach puts children and youth at the heart of everything we do - whether it is long term development work or humanitarian response. It enables us to address the root uses of child poverty.

Our distinctive approach to creating a lasting change for excluded children and ending child poverty is called Child Centred Community Development. Our approach is built on two principles:

1. Ensuring that all girls and boys realise their full rights by putting them at the heart of our endeavours.
2. Supporting groups of people to come together, mobilise and tackle issues that affect them.
Plan India, a nationally registered independent child development organization committed to creating lasting impact in the lives of vulnerable and excluded children, their families and communities, has been working in India for over 35 years. We have long term child centered community development projects in 10 states and short term thematic projects in 4 states.

Four states in which Plan India implements long term programmes (Jharkhand and Bihar, Odisha and Uttar Pradesh) are among states with the highest poverty headcount ratio in the country. Nearly 60% of the districts in these states where Plan India worked have been categorized as backward districts by the Government of India.
ABOUT COUNTRY STRATEGIC PLAN IV

Plan India’s strategic plan for 2015-2020 has been developed after consultations with its stakeholders namely field partners, children, youth, women, CSOs, Governments (local, regional and national), funding partners as well as with networks and alliances that Plan India represents or leads.

CSP IV aims to:

Directly Impact
2 MILLION CHILDREN

Develop
INNOVATIVE PILOTS

Reach
5 MILLION CHILDREN through advocacy

CSP IV ensures:

- **Relevance:** Alignment with Plan’s global aspirations and national priorities for building and progress made with regards to the Millennium Development Goals (MDGs) as well as alignment with the new SDGs.

- **Convergence:** The proposed approach encourages programmes to work together to achieve outcomes for children and young people in the age group of 0-29 years.

- **Gender and social inclusion:** CSP IV underlines Plan India’s commitment to make informed decisions to reach the most vulnerable and excluded communities and implement gender transformative programmes.

STRATEGIC OBJECTIVES

Plan India’s strategic response gives due attention to the rights of children as set out in the United Nations Convention on the Rights of the Child. Furthermore, the strategic objectives made in CSP IV build on Plan’s global strategic direction articulated in ‘One Plan, One Goal’; regional thematic strategies and priorities; our expertise; learning and achievements of CSP III; emerging national priorities for child rights based on progress made towards MDGs as well as SDGs.

Our six strategic objectives include:

1. Maternal Health, Child Survival and Optimal Development
2. Water, Sanitation and Hygiene
3. Quality and Holistic Education
4. Employment and Economic Empowerment
5. Child Protection
6. Disaster Risk Reduction
MATERNAL HEALTH, CHILD SURVIVAL AND OPTIMAL DEVELOPMENT
“Not everything positive that happens in life brings happiness but that can always be changed.”

– Anuradha

A positive ray of hope

Anuradha and her husband were thrilled to be on be parents for the first time. When Anuradha went into labour, she was taken to the hospital and underwent routine medical tests. Her reports were a blow – she was HIV positive and complications required that she have a C-section. That night, she delivered a baby boy. The village Accredited Social Health Activist brought along an outreach worker from Plan India’s Project Ahana who promptly gave him a dose of Nevirapine to prevent HIV transmission. Anuradha grew weaker and was referred to a medical college, her husband advised to return home. Both were diagnosed HIV positive by confirmatory tests and immediately linked to Antiretroviral Therapy (ART).

People in their village got to know and threatened to throw them out for fear of infection. Beleaguered and ostracised in the community, Anuradha’s father-in-law omitted their family. When word reached the project team, a meeting was held with over 60 village leaders to raise awareness and dispel myths about HIV. Realising their mistake, the community apologised d and welcomed the family back. Today, Anuradha and her family are on their way to being healthy again. They regularly meet with the Plan India project team, take ART and immunise their son, fittingly named Armaan (hope).

GOAL 2020

Improve access to quality reproductive, maternal, child and adolescent health services in 6,000 villages and urban slums

A child’s health, development and survival is linked to nutrition, well-being and survival of its mother. We implement strategies that provide families with services and health facilities with facts, promoting health, prevention and management of common childhood illnesses. By empowering health workers and through the distribution of Information, Education and Communication (IEC) material, we aim to improve access to reproductive, maternal, child and adolescent health services that will directly benefit women in the reproductive age, children below five and adolescents.
Key Achievements

Number of children benefitted: 126,100

Number of births registered: 20,200

Number of expectant mothers prepared for safe deliveries: 30,500

Number of families that benefitted from health camps: 17,800

Number of children who benefitted from ECCD services: 82,700

Number of professionals/community health workers trained: 2,150
Key Activities

In partnership with Global Fund to Fight AIDS, Tuberculosis and Malaria and the National AIDS Control Organization (NACO), Project Ahana was implemented with an aim to make a significant impact in the global fight against HIV and AIDS by accelerating the uptake of PPTCT services among women and children in the most marginalised communities of India. The project covers 218 districts.

Along with our local NGO partners, World Breastfeeding Week (Aug 1-7) was observed by numerous communities we work in. Mass awareness camps with mothers on child malnutrition were organised with over 25,000 mothers and community members in attendance. Local government health workers were also invited to share their knowledge.

In Delhi, an orientation for fathers from our communities was organised on child rearing and family planning methods. The purpose was to enhance their knowledge on newborn health and nutrition. Sessions were led by experts in the field who spoke on the latest developments in family planning, including oral pills, condoms (male and female), emergency contraception, etc.
WATER, SANITATION AND HYGIENE
“Dirty toilets in the school made me stay away and miss my classes. Now, I am regular and look forward to coming to school and studying.”

– Himpi, Student

Making Learning Fun and safe

The Senpur Primary School in Ambedkar Nagar district, Uttar Pradesh, has 63 students and four teachers. It lacked all the basic facilities that make learning and teaching fun and safe.

Girls especially did not regularly attend classes due to poor hygiene conditions. Worse still, open defecation was practised around the school. The school and students had all but given up hope, that is, until a visit by Plan India's staff changed things for the better.

As part of the Support My School campaign implemented by Plan India and supported by Coca-Cola and NDTV, separate toilets were built, safe drinking water was made available and sports facilities were provided.

Since then, the number of children enrolled in Class I has increased and retention has gone up from 51% to 80%. Most importantly, the children now look forward to going to school and studying and play with their friends.

GOAL 2020

Improve access to water, sanitation and hygiene services in 6,000 villages

Our work on WASH aims to ensure that children and communities have access to clean water and sanitary facilities. Working with schools, our programmes engage with students informing them about personal hygiene. Our work also enables building and renovation of toilets in schools and communities with the purpose of ending the practice of open defecation.

By providing access to WASH services, children and youth from slum areas and community members are able to lead a healthier life and attend school regularly.
Key Achievements

Number of children benefitted

![Boy and girl icon] 153,600

Number of children benefitted from upgraded WASH who facilities in school

![Water tap icon] 64,200

Number of families supported through construction of toilets

![Key icon] 11,300

Number of school children oriented on hygiene practices

![Hand washing icon] 84,500

Number of persons trained on water management

![Water droplet icon] 24,000
As part of the ‘Swachh Vidya lag, Swachh Bab e’ campaign, 73 schools with more than 700 children, parents and teachers each were taught on cleanliness of schools and personal hygiene. Along with this IEC material was distributed across 25,000 schools.

In Uttar Pradesh, an orientation and consultation was organized with 4,200 adolescents on the importance of domestic toilets and bathrooms thus enabling them to play the role of ‘WASH Champions’ in their respective communities. Over 1,000 adolescent girls who participated in the activities were able to influence 126 families to construct domestic latrines bringing an end to open defecation. These children have also been conducting water quality checks and testing in their communities and labelling water sources as safe/unsafe for drinking.

Key Activities
QUALITY AND HOLISTIC EDUCATION
“The first time I went to the Centre, I was so nervous… but then I see this sea of smiling faces in front of me and on screen. I knew then that things would get better.”

– Jhanvi

A Girl Undeterred

Jhanvi awoke in a hospital no longer able to read or write. The previous evening, she had accidentally fallen off the roof of her home in Delhi, suffering a traumatic brain injury that forever changed her life.

As a former school topper, she was heartbroken. She took to staying home and helping her mother with chores, refusing to go to school for fear that she’d disappoint herself and her teachers. Then one day, a young woman stopped by to speak with Jhanvi and her family.

She was a learning facilitator at a nearby Digital Learning Centre supported by Plan India and Ericsson. It took a bit of convincing, but Jhanvi finally decided to start studying there.

Now, Jhanvi is slowly going back to her old self. She attends classes regularly, is the first to share her thoughts and encourages others to come to the centre and learn. More importantly, she has learned to read and write again. She plans to be a school teacher when she grows up.

Goal 2020

Improve holistic learning and quality education (pre-primary to secondary education) in 3,000 ECCD/Anganwadi Centres and 3,000 schools

Our educational programme is based on the knowledge that learning begins at birth, and early formats play a crucial role in the development of a child. We foster innovative and inclusive teaching and learning that marginalise and at-risk children and youth learn in a safe environment.

We work on quality and holistic education by ensuring that all children between 3-6 years in our operational areas have access to an education at home and in their centres. Through Play centres’ media, under the anganwadi centres, etc, children are provided with an education, health and nutritional benefits and a safe and conducive environment to learn and grow. They are also supported through maintaining re-enrolment in schools to complete their education.
Plan India in partnership with Capgemini launched the School Adoption Programme in Hyderabad with the aim to fulfill a child’s right to a quality education and help children receive formal schooling in a safe and supportive environment across 10 schools in the state, covering 25 urban poor communities.

15 Digital Learning Centres set up by Plan India and Ericsson since September 2015 utilize technology solutions to provide quality education to young women in the age group of 15-25 years within their own communities thereby removing the challenge of limited mobility. 500 girls actively attend classes.

This year saw a strong focus on enhancing learning outcomes through identification of difficulties faced by children and strengthening the ties of teachers through peer assistance training. In all, 400,000 children were re-engaged through 2,660 government schools.

EMPLOYABILITY AND ECONOMIC EMPOWERMENT
“Growing up, I was always told to remain silent at all times. Project Samanta has taught me to take a stand for what I believe in and that it is possible to make a difference. This is something I not only share with other women, but teach my daughter too.”

– Mahima

Breaking the Mould

Mahima was the sole breadwinner for a family of four. Her job as a daily wage worker was all the more unbearable because on some days, she earned Rs. 75, on others nothing.

It was during these trying times that Mahima heard about Project Samanta, supported by the European Union, to take the issue of wage disparity and discrimination in the workplace. She soon joined the women’s collective where she spoke of her problems and realized she wasn’t the only one.

Along with the rest of the women, Mahima now had a platform to voice her concerns and confront her employer. She took up the issue with Community-based Vigilance Groups - a part of Project Samanta.

A member of the department accompanied the group and explained the employer on workplace laws, equal remuneration and the Minimum Wage Act. After several meetings, finally, the employer agreed to pay equal wage and Mahima and the other women began receiving the same wages as the men. Their work hours were cut down and they were afforded breaks in between.

GOAL 2020

I mprove youth skill development, employability and financial inclusion in 3,000 villages and urban slums

Unemployment among young people creates immediate and long-term economic losses for individuals, their families and communities. Our work aims to ensure that vulnerable and marginalized youth and families have the skills they need to increase their income and can access financial services.

Plan India works with government, NGOs and stake holders to increase and improve young people’s access to financial services, financial literacy and entrepreneurship. Training for Entrepreneurship Promotion (VETP) and Vocational Training for Entrepreneurs are organized for the youth. Some of our projects also work with farmers and Victim of Commercial and Sexual Exploitation and Trafficking (VOCSET).
Key Achievements

Number of children/youth benefitted
16,500

Number of active members in children’s forums
29,430

Number of families supported for livelihood
11,600

Number of women who accessed financial services
38,500

Number of youth who received JOVT
2,000
To celebrate International Women’s Day 2016 (March 8), Plan India organised the first ever ‘Plan Fair to Show you Care’. Women members from our projects in Delhi, Rajasthan and Bihar sold their exquisite handmade products at the three-day event. In all, the fair was a grand success with the women earning more than Rs 1.5 lakh.

Along with the Schwarzkopf Pro team, young women from marginalised communities in Delhi were trained on the art of professional hair dressing through the ‘Shaping Futures’ project. Furthermore, they were provided job placement support after the completion of the course.

More than 60,000 women were supported through microfinance activities covering an estimated 2,800 groups across the country. In Delhi alone, over 18,000 women were supported. Almost 23,000 women have been facilitated to accessing loans from institutions.
CHILD PROTECTION
“Girls should be in school instead of being married off at an early age. I am happy my village has taken a stand against child marriage.”

– Kiran

Breaking Barriers

In a tiny village in central Jharkhand, seventeen-year-old Kiran and her friends spent most of their lives often being neglected in favor of their brothers.

A few years ago, Plan India began implementing programs there, on girls’ education, protection, nutrition, and health. It wasn’t always easy, but outreach grew stronger with time, gradually influencing and bringing larger community groups together.

Families like Kiran’s joined in hopes of providing a better life for their children. As part of programs, adolescent girls’ clubs were formed, in which Kiran actively participated.

It awoke Kiran’s attention during one meeting when a 16-year-old girl was forcibly taken out of school by her parents and was being married off against her will. Together, the girls approached the Block Development Officer. Their tenacity moved him to take immediate action and stop the wedding.

This resonated with the entire village, and a movement began an announcement being made by the elders. No underage girl in their community would ever be forced to marry again.

GOAL 2020

Increase protection and effective redressal from all forms of abuse, neglect, exploitation, and violence in 6,000 villages and urban slums

Plan India is committed to enabling children to reach their full potential and ensuring their overall well-being by providing them with a protective and conducive living environment. We recognize that communities, families, and children themselves are an integral part of any effective child protection system. As such, we focus on bringing stakeholders together to collaboratively build a long-term protective environment for children in their communities.

Our long-term aim is to increase protection and effective redressal from all forms of abuse, neglect, and violence for children, especially girls living in villages and urban slums.
Key Achievements

Number of children benefitted

- 262,200

Number of children prevented from child labour

- 8,900

Number of child labourers rescued and re-enrolled in school

- 6,400

Number of children who received training on child protection

- 29,000

Number of professional trained on children’s rights

- 5,600
Key Activities

A National Conference on Children in Street Situations was organised with the Consortium for Street Children. The two day UN General Comment on Children in Street Situations witnessed stakeholders and experts from the field deliberating on various issues that affect children living and working on the streets.

Plan India initiated the Safer Cities Campaign in New Delhi to engage bystander support, evoke a sense of moral responsibility among bystanders to ensure Delhi is safer for girls and encourage girls to use the identified and marked ‘safe houses’ in designated areas.

In Andhra Pradesh and Telangana, the anti-child labour initiative succeeded in enrolling 20,600 children into government schools. These included children who were either child labourers or out of school and at risk of being pressed into child labour by their families.

To raise awareness on child labour, as a precursor to World Day Against Child Labour (June 12), an event was hosted in Mumbai on June 10. The event was attended by Plan India’s Patron and Goodwill Ambassador, Anil Kapoor who voiced his support to bring an end to child labour.
“When the floods came and took my books away, I thought I would never go back to school. Being able to continue with my studies makes me forget about the disaster and carry on with my life.”

Riding the Flood of Emotions

Thrisha was studying in Class VII when the Chennai floods hit and changed the course of her life. Along with her family belongings her books were destroyed and school clothes were washed away. She felt sad that she would not be able to continue with her education.

On learning of her situation, and as part of our relief response, Thrisha was placed in a Child Friendly Space along with other children who were affected by the flood. There, through counselling, she slowly regained her confidence, every day, the smile on her face appearing more visible.

She spent most of her days taking part in educational and physical activities, thoroughly enjoying her life with her new friends. She was also taught how to protect herself and her family in the event of a disaster.

Thrisha was finally ready to go back to school. She had found her motivation to continue with her studies. Today, she is back to being the enthusiastic student she was before the floods hit and is performing extremely well in class.

Goal 2020

Build disaster resilient communities through comprehensive disaster risk reduction and humanitarian assistance in 1,000 villages and urban slums

Our main focus is building resilient communities and supporting the rights of children to a life with dignity and protection before, during and after disasters and conflicts. We work towards providing humanitarian aid during disasters which include nutrition, shelter and educational support to children.

Our Disaster Risk Management team is constantly at work helping disaster-prone communities by conducting drills and distributing IEC material.

We seek to ensure timely and comprehensive assistance in the event of a disaster with a specific focus on protection, ECCD, education and WASH in affected areas equally for girls.
Key Achievements

Number of persons benefitted: 63,000
Number of children oriented on disaster preparedness: 37,000
Number of households provided with food and non-food items: 7,000
Key Activities

In response to the South India Floods, Plan India worked to provide disaster relief items such as shelter supplies, blankets, tents, and other emergency items in some of the most devastated and hard to reach districts of Tamil Nadu and Andhra Pradesh.

To mitigate the food scarcity and prevent malnutrition, immediate relief was provided during the 2016 drought. In Uttar Pradesh and Andhra Pradesh, food baskets were provided to more than 2,000 families. In Beed district, Maharashtra, the acute water scarcity was addressed by providing potable water to 1,334 families along with food baskets. Drinking water was supplied for a period of 30 days, with each person being provided 15 litres of water as per WHO standards.

A two-day training on Cash Transfer Programme (CTP) in emergencies was organized to improve implementation by providing direction on key roles, responsibilities, and steps to be undertaken to ensure timely and quality CTP through the project. The training provided an understanding of best practices during emergency situations.

In Uttarakhand, Plan India responded to forest fires and landslides by providing material support to 150 families. Additionally, during the year, Plan India completed the Hudhud programme which benefited nearly 4,000 families worst affected by the cyclone in coastal Andhra Pradesh, helping to rebuild their livelihoods.

Because I am a Girl (BIAAG) is Plan’s global campaign to create a world that values girls, promotes girls’ rights and ends injustice. As part of the BIAAG campaign in India, Plan India is deeply committed to ensuring girls enrol and complete a quality primary and secondary education in a safe and supportive community environment.

Gender equality and girls’ education are central to achieving change. Investing in girls is one of the single best decisions we can make to end poverty for everyone. An educated girl will grow up to gain her rightful place in society and be a champion of change, raising the status of girls and women.

Through the BIAAG campaign, Plan India has advanced the call for better education, survival and life skills for girls across the country.
Girls Aspiration for Rights and Value (GARV)

India's Child Sex Ratio (CSR) has decreased from 976 girls to 1,000 boys in 1961 to just 918 girls for 1,000 boys in 2011.* The GARV project builds on the ‘Let Girls Be Born’ project, our flagship initiative to empower mothers and communities against gender bias and to eliminate and ensure that girls have the right to survival, equality, identity and citizenship. The project is currently implemented in 180 villages with low CSR. The villages were selected in consultation with the respective district administration in order to engage in a sustainable partnership for implementation and monitoring.

*Source: Census of India 2011

Key Achievements

- 3,000 STAKEHOLDERS trained to be community champions - ‘Peer Educators’
- More than 1,000 FLWS across 180 villages trained on the concept of gender discrimination and life approach
- 50 quarterly meetings organized addressing 2,200 community members

Balika Shivir

Balika Shivir was set up by Plan India and its NGO partner Urmul Setu in 1998 to address the issues surrounding girls' education and build marriage in the state of Rajasthan.

The Shivirs (residential camps for girls aged 6-18 years) and Kishori Prema Manch (KPM) impart vital education skills including life skills, literacy and vocational training to girls who do not have the opportunity to attend regular school. A significant change in the attitude of girls and their families has been witnessed over the years. Impressive, now these girls are not only pursuing their dreams but also giving back to their communities through their involvement in KPM, famine relief programmes and as advocates of education and change. Enrolling girls in the Shivirs potentially delays their age of marriage by two years on average.

Key Achievements

- 300 GIRLS reentering school with 42 GIRLS reenrolling job oriented vocational training
- 167 out of 118 school girls from remote villages in Bikaner graduated from Class 10 and Class 12
- 50% GIRLS linked with various government scholarship schemes or other available financial support
- Parents have begun advocating for upgradation of schools to senior schools and appointment of female teachers
By 2030, we will have approximately 1.5 billion girls living in cities. * Girls in cities contend with the contrast of increased risks and opportunities (*Source: The State of the World’s Girls Report 2010)

The Safer Cities project strives to increase safety and access to public spaces for women and girls; their independent and unrestricted use of public transport; and meaningful participation in urban governance, planning and management.

A global project led by Plan International, UN-Habitat and Women in Cities International, Safer Cities is currently being implemented in five cities across the globe: New Delhi, Cairo, Hanoi, Kampala and Lima. The initiative aims to benefit more than one million individuals by 2020.

**Key Achievements**

- **200,000 Community Members** and general public have committed to the Safer Cities programme
- **14,600 Adolescent Girls**, 5,000 adolescent boys, 1,500 youth girls, 500 youth boys and 1,000 parents have been instrumental in propelling the programme forward through sustained engagement to create a culture of understanding and appreciation among various generations on issues of safety
- More than **350 Government Officials** (decision makers, policy implementers) and 180 transport staff (formal and informal) have committed to making cities safer for girls
- **300 Adolescent Girls** were trained on self-defense by the Patrakranti Cell of Delhi Police
- Over **200 Safe Spaces** have been set up in intervention communities supported by local leaders
Digital Learning Centres

In 2015, 400 million Indians had internet access, an increase of 49% from the previous year. However, the percentage of women users was just 29%.* (*Source: Internet and Mobile Association of India).

The Digital Learning Centres set up by Plan India in collaboration with Ericsson, utilise technology solutions to provide quality education to young women in the age group of 15-25 years within their own communities, thereby overcoming the challenge of limited mobility.

Key Achievements
- **16 LEARNING CENTRES** and resource hubs have been established in Dwarka, Holambi Kalan and Rangpuri Pahadi in Delhi
- **1,100 YOUNG GIRLS** are actively attending classes
- **25,650 PARENTS** and community members have been sensitised on the importance of girls education through community meetings and parents orientation sessions
- A short film on the project was created in collaboration with The Better India. The film was launched on Girls in ICT Day and has been a tremendous success garnering over 184,000 views within just a few days of being launched

Saksham

By 2022, 119 million workers will be required to meet the demands of a growing Indian economy. 29 million jobs will be available in the organised retail, hospitality, IT and allied sectors alone.* (*Source: National Skill Development Corporation’s Skill Gap Report, 2009)

The Saksham project is Plan India’s initiative to fulfil this need by creating an equitable and sustainable future led by an informed and empowered youth. It equips disabled tagged girls with access to the best opportunities for learning, personalised to meet their diverse needs, interests and aspirations. The project supplants a burgeoning, nationwide need for trained workers and entrepreneurs, making great strides towards enhanced economic participation and long term and inclusive development.

Key Achievements
- Over 5,000 YOUTH benefitted through career counselling, appropriate JOVT and training for entrepreneurship development
- **70% YOUTH** have job placements at renowned companies including Futures Group, Café Coffee Day, KFC, Big Bazaar, Pantaloons Reliance, etc. 54% of whom were girls and young women
- Youth have initiated a habit of **SAVING REGULARLY** to meet future needs
- **YOUNG GIRLS** from our communities represented Saksham in the international forum
- Comprehensive JOVT and VTEP manuals on standard operating procedures have been developed

*Annual Report 2015-16*
Banking on Change

Banking on Change, a partnership between Barclays, Plan International and CARE was established in July 2010. Originally, it set out to deliver a savings-led microfinance programme to improve the financial inclusion of people in 11 countries across Africa, Asia and South America.

Plan India implements this project in Delhi in partnership with Dr. A.V. Baliga Memorial in the areas of Mangolpuri and Sultanpuri and its adjacent colonies. The goal of the project is to improve the economic security and quality of life of disadvantaged children by providing young women as savings to financial services through financial linkages and micro-enterprise development activities.

Key Achievements

- **19,000 Women** are active members of the project.
- **900 SHGS** have been formed in communities across the project area.
- **21,000 Women** have received financial, enterprise/employment skills training.
- **7,500 Women** have received under micro, health and life insurance schemes.
- **1,000 Youth** have received job placement.

Samanta

The problem of social marginalisation affects women and children the most in Ambedkar Nagar, Uttar Pradesh. It is recognised as one of the largest suppliers of labourers in India with 59% of the population living below the poverty line.

Plan India partnered with the European Union to implement the Samanta Project in 90 Gram Panchayats of 9 blocks in Ambedkar Nagar. The aim is to facilitate equal wages for 10,000 women for equal work and non-discrimination at the workplace.

Key Achievements

- **10,000 Working Women** have been mobilised into 324 groups.
- **2,000 Working Women** are receiving wages in parity with men for similar work.
- **1,300 Working Women** have received equal opportunity for work at workplace as men on the basis of expertise.
- **1,400 Working Women** have received wage rules in support of wage parity.
- **1,550 Employers** have committed to revise wage rules in support of wage parity.
- **8,000 Children** have benefited from ICDS services and over **400 Children** have been re-enrolled in school due to increased economic security of women’s income and ability to provide for their children.
More than **140 CHILDREN BETWEEN 3-10 YEARS** have been enrolled in the Munirka and Nizamuddin centres.

An estimated **35 CHILDREN** have been mainstreamed into formal education (Municipal schools) where they continue with their education. The project also links the family caregivers of these children with sustainable livelihoods so that household economic security is achieved.

Children aged between 3-18 years are given non-formal education in English, Hindi and Mathematics and are taught art and meditation. Additionally, the children are given nutritious meals (breakfast, lunch and dinner), basic clothing, psychological care, medical aid and life skills education. In some cases, children are helped to re-engage with their families.

**Key Achievements**

- More than **140 CHILDREN BETWEEN 3-10 YEARS** have been enrolled in the Munirka and Nizamuddin centres.
- An estimated **35 CHILDREN** have been mainstreamed into formal education (Municipal schools).
- Libraries have been set up at both centres where children are encouraged to end time reading.
- Local administration including the Delhi Government, police and district administration have provided dedicated **NIGHT SHELTERS** dedicated to the children for their rehabilitation.
Plan India, in partnership with NACO aims to make a significant impact in the global fight against HIV and AIDS by accelerating the uptake of PPTCT services among women and children in the most marginalized communities of India.

Launched in October of 2015, the 27 month long programme is being implemented in 9 states - Assam, Bihar, Chhattisgarh, Jharkhand, Madhya Pradesh, Odisha, Rajasthan, Uttar Pradesh and West Bengal and will cover 218 districts where 63% of all pregnancies occur in India.

Key Achievements

- **215 District Resource Teams** have been formed with almost 9,000 health workers trained
- All partner staff have received **TRAINING ON MONITORING** and evaluation management and techniques
- **160,000 Pregnant Women** registered for Antenatal Care in public facilities and screened for HIV and AIDS
- **738 Identified HIV+ Pregnant Women** have been linked to ART
- **237 Early Infant Diagnosis** conducted for HIV exposed infants
Empowerment through Sports

Launched in Andhra Pradesh, the ‘Empowerment through Sports’ project is focused around the ‘Right to Play’, as per the United Nations Convention of the Rights of the Child. The goal of the project is to empower children, especially girls, through sports activities, life skills sessions, community awareness, and advocacy with the government.

6,500 CHILDREN AND ADULTS DIRECTLY IMPACTED

10 PLAYGROUND FACILITIES BUILT FOR CHILDREN

80 CHILDREN PARTICIPATED IN GOVERNMENT TOURNAMENTS

Key Achievements

- Over 6,500 CHILDREN and adults directly impacted through the project
- 10 PLAYGROUND facilities for children were developed giving them access to regularly participate in sports activities
- More than 80 CHILDREN participated in government tournaments and games including athletics
- 3,200 CHILDREN oriented on communication, importance of education, health and hygiene
Institutional Partners

- Columbia Group of Children in Adversity: Supported a project leading to Inter-Agency Action Reef arld strengthening community based child protection in Ark and

- European Commission: A project on wage parity in the Ambedkar Nagar district of Uttar Pradesh is being supported by the European Commission on

- Global Fund for Tuberculosis, Malaria, HIV and AIDS: Plan India has been awarded a grant through HIV/AIDS alliance to execute Project Vihaan, to address the issues of people living with HIV/AIDS in the state of Bihar

- Global Sanitation Fund: To support the ‘Promoting Sustainable Sanitation in Rural India’ project in districts of West Champaran and Gopalganj in Bihar

- Human Dignity Foundation: Plan India with support from Human Dignity Foundation is implementing a project to address the issue of child trafficking/child labour in the states of Andhra Pradesh and Karnataka

- Oak Foundation: Plan India in partnership with Oak Foundation is implementing a project aimed at strengthening child protection in the state of Bihar

- United States Agency for International Development: To propel relief measures in Odisha, Plan India received support from USAID through Catholic Relief Services

- National AIDS Control Organization (NACO): Plan India has been working closely with NACO on the increase of uptake in PPTCT in rural areas in low performing districts across the country

- National Commission on Child Rights (NCPCR): In collaboration with the NCPCR and the State Commissions on for Protection of Child Rights Plan India is working on the promotion and protection of children’s rights particularly in children from marginalized families

Government Agencies

- Ministry of Drinking Water and Sanitation: Plan India is being supported by the Ministry of Drinking Water and Sanitation in the capacity building of Government personnel engineers on sanitation programmes by brining awareness and change in water and sanitation practices across India

- Central Railways Warehouse Company Ltd.: Supports Plan India in improving WASH facilities in schools in Uttar Pradesh and to create safe and healthy learning environments for children

- LIC Housing Finance Limited: Plan India is partnering with LIC to provide early childhood care, development and education to 600 children in Bangalore and Delhi to ensure better quality of life through day care facilities for young children at selected sites and migrant labourers through the Integrated Child Development Scheme

- National AIDS Control Organisation (NACO): Plan India has been working closely with NACO on the increase of uptake in PPTCT in rural areas in low performing districts across the country

- National Commission on Child Rights (NCPCR): In collaboration with the NCPCR and the State Commissions on for Protection of Child Rights Plan India is working on the promotion and protection of children’s rights particularly in children from marginalized families
Ministry of Women and Child Development (MWCD): Plan India is partnering with the national and state level MWCD to improve the policy and implementation of programmes related to the prevention of child trafficking, child labor, sex determination and sex selection abortion. We are actively supporting the government’s Beti Bachao, Beti Padhao and Khush Pooja projects.

Registrar General and Census Commissioner of India, Ministry of Home Affairs: For the past decade, Plan India has been leading the larger efforts of the government and the UN on registration and certification.

From the Partner’s Desk

“Capgemini, a French multinational and one of the world’s largest consulting, technology and outsourcing companies is proudly associated with Plan India, for the School Adoption Programme in Hyderabad, as part of our CSR initiative. Plan India brings to our initiative the right commitment, acumen and rigour which is needed to achieve success. We look forward to a truly engaging and meaningful interaction with Plan to make schools a better and brighter place for children.”

– Kumar Anurag Pratap – CSR Leader, Capgemini India Pvt. Ltd.

“In India, access to education remains a very big problem. In a country with the largest number of illiterate people in the world at 270 million individuals, we, at HSBC Software Development (India) Pvt. Ltd., support the right to education. Through our partnership with Plan India, we want to make a difference in the lives of children in disadvantaged situations through the implementation of educational programmes. The journey has just begun.

– Girish Bidani - Head of Centre Operations HSBC Software Development (India) Pvt. Ltd.

“Oracle is committed to advancing education, protecting the environment and enriching community life. We collaborated with Plan India to support schools in Telangana to create child-friendly learning environments that foster meaningful and sustainable learning in science, technology, engineering, and mathematics. We believe that empowered children and communities are the best change agents for environmental sustainability.

– Rajendra Tripathi Senior Manager Oracle Corporate Citizenship - India
Plan India has been actively participating in programmes, events and fundraising activities. These initiatives have reached out to the public through print, electronic and online media. The activities undertaken enhanced the visibility of our programmes and strengthened our credibility as an organization committed to advancing children’s rights and equality for girls.

Articles published in the national media reported on the launch of the 7th annual BIAAG ‘State of Girls in India’ report, Plan International CEO’s visit, World Day against Child Labour event with Anil Kapoor, Conclave for Street Children, and a range of human interest stories.

The reach of our coverage spread across online media as well. Almost 90% of our stories got published across various news portals.

- **56 Event Based Coverage** in print media
- **98 Event Activity Coverage** in online and electronic media
- **6 Success Stories Coverage** in print media
Plan India’s Marketing and Communications team is responsible for developing and executing marketing strategies to effectively communicate the organization’s mission and impact and ensure consistent messaging across all channels, including social media and print.

The department creates quarterly newsletters, marketing brochures, donor communications, human interest stories and other publications. The department manages Plan India’s social media channels and website and develops and executes social media campaigns focused on fundraising and raising awareness towards the use of marginalized children.

In FY ‘16, 36 human interest stories, 16 online articles, and 12 project brochures were created and published. Furthermore, the team supported other departments in organizing 13 events including programme launches, report launches, and events to raise public awareness on building labour and safe spaces for girls.

The Marketing and Communications team conceived and executed the following major advocacy campaigns in FY ‘16:

**Safer Cities:** A two-month long campaign aimed to increase and maximize awareness and outreach for Safer Cities. The aim was to engage bystanders to be a sense of responsibility among citizens and encourage girls to use the marked ‘safe spaces’ in designated areas in case they needed support. The campaign garnered over 900 pledges.
World Day against Child Labour: An event was held in Mumbai on June 10 to raise awareness on child labour in honour of World Day against Child Labour. The event was attended by Plan India’s patron and goodwill ambassador, Anil Kapoor, who interacted with children from the Wheels Project and also inaugurated the photo exhibit at Palladium Mall, Mumbai.
85% of funds raised are invested in implementation of programmes.

Govind Nihalani – Chair Emeritus

Govind Nihalani is Plan India’s Chair Emeritus and Goodwill Ambassador. He has been a member of the Governing Board since 2005 and was the Chairman of the Board for five years. An eminent film director, cinematographer, screenwriter and film producer, he was awarded the Padmaashree for his contribution to Indian cinema.

Arti Kirloskar - Chairperson

Arti Kirloskar is the Chairperson of Plan India’s Governing Board. She has been associated with Plan India since January 2007 and has been deeply involved in fundraising and advocacy. In addition to being part of the Kirloškar Company, Arti has also worked extensively to protect and restore the environment and heritage monuments and buildings in India. She is the owner of the Indian National Trust for Art and Cultural Heritage in Pune and an executive member of the Kirloškar Foundation.

Rathi Vinay Jha – Secretary

Rathi Vinay Jha currently serves as Chairman having been on the Board as Secretary and Chair of the Programme Planning and Strategy Committee. She has spearheaded the governance of India as an officer of the Indian Administrative Service, during which she implemented pioneering initiatives as State Administrator leading the National Institute of Fashion Technology and Corporate Social Responsibility in the Indian context with the Confederation of Indian Industry.

Prabha Pande – Treasurer

Prabha Pande joined Plan India’s board five years ago. Prabha was the Country Director for Plan International, leading and directing all country operations in Nepal (2001-2006) and in Thailand (2006-2009). She has also worked for Save the Children Fund (UK) as Head of Regional Office in Bangkok and as Programme Director for North India and Sponsorship Officer in Save the Children’s New Delhi Office.

Balveer Arora

Balveer Arora has been a member of the Plan India board since 2008 and is Chairman of its Governance and Nomination Committee. He taught Political Science at Jawaharlal Nehru University, New Delhi (1973-2010) and is currently Chairman, Centre for Multilevel Federalism, Institute of Social Sciences, New Delhi. He was a two-term Chairperson of the NUC Centre for Politics Studies and thereafter Rector and Provost, Chane Ilor of the University (2002-05).

Raj Nooyi

Raj Nooyi has been a member of the Plan India Governing Board since 2008 and is an active member of the Marketing and Communications Committee and the Governance and Nomination Committee. He also serves as the Vice-Chairman of Plan USA’s Board of Directors and a member of the advisory council of the Wildlife Biology and Conservation Institute in Bangalore. He has successfully led business solutions in the areas of acquisition integration, supply chain operations, product marketing, channel operations, field marketing and sales.

Madhukar Kamath

Madhukar Kamath has more than three decades of experience in Advertising and Marketing Communications and has spent twenty years in Mudra, in two separate stints. He has served as the President of the Advertising Agencies Association of India and Chairman of the Advertising Standards Council of India. Currently, he is on the Board of the Audit Bureau of Circulations. He was also the Chairman of the Organising Committee for AdAsia 2011.

S. Parasuraman

S. Parasuraman has over 25 years of experience as a teacher, trainer, administrator and...
Ranjan Chak
Ranjan Chak joined the Plan India board in 2011 and serves on the Board’s Marketing and Communications committee. Ranjan has established new ventures in Europe and Japan for the Carnegie Group Inc. Ranjan is currently an advisor to Xioteb Corporation (an Oak portfolio company) and is on the Advisory Board of Venpa, the Board of International of India, and Chairman of the Advisory Board of Oakidge International School, Hyderabad.

Udayan Sen
Udayan Sen has over 30 years of experience in professional services in India and Singapore. He specialises in financial advisory, audit and assurance. Currently, he is the Chief Executive Officer and Managing Partner in Deloitte India. He is also a member of the International Board of Deloitte Touche Tohmatsu.

JVR Prasada Rao
JVR Prasada Rao joined the Plan India Board in 2015. He is currently the United Nations Secretary General’s Special Envoy for HIV/AIDS in Asia-Pacific. He retired as the Secretary of Health and Family Welfare, Government of India and served as Regional Director, UNAIDS, Asia Pacific from 2004-2009. He was the Director General of NACO from 1997-2002 and contributed significantly to establishing India’s AIDS response as a world leader.
